We are in a time of such uncertainty and when things start looking clearer the next thing you know we are back to having more questions than answers! I’m sending this out so you as parents so you are aware what we are thinking the 20/21 school year looks like as far as transportation goes.

Social distancing is not really something that can be done on a school bus. Our students will be required to wear masks while, boarding, riding and exiting the bus. Our drivers will also be wearing either a facial covering or a shield and they will keep them on whenever they are around students.

Seats will be assigned at every grade level to help with contact tracing if necessary. We will be requiring that siblings and students living in the same home sit together. When students board the bus they will fill the seats in the back of the bus first, looking for their name which will be affixed to the side of the bus. When students arrive at their designated school the driver will dismiss the students by seat in an effort to practice social distancing as much as possible.

We are asking that students and parents practice social distancing at the bus stop as best as possible.

Thank you in advance for your cooperation. Hoping 20/21 turns out to be a good year for our students, parents and staff. Stay healthy!
